TO WHOM IT MAY CONCERN;

Re: TransCanada Pipelines Limited – Energy East Project

The R.M. of Pense No. 160 Council, at their regular Council meeting held on July 8, 2015, agreed to send a letter of support for the development of the Energy East Project.

Council feels this is an important project and would like to see it proceed and be completed. With the completion of this project Eastern Canada will have access to Canadian oil and eliminate the need to rely on imported oil. There are benefits for municipalities to be realized including: increases to tax revenues, increases in economic activity for local businesses and a reduction in transportation of oil across our municipal roads and highways.

The R.M. of Pense Council fully supports the development of the TransCanada Energy East Pipeline Project.

Sincerely,

Cathy Ripplinger
Administrator
