Calgary, AB T2P 5H1

To whom it may concern,

The Village of Alliance is pleased to provide, by a unanimous motion of council, this letter of support for the TransCanada Energy East Pipeline Project.

Fossil fuel is our most valuable natural resource in the developing world; it provides us with heat for our homes, fuel for our transportation, its components are used to make products such as detergents, textiles, paints, plastics, the medicines that help heal us, and much more. Without fossil fuels our lives as we know it today would be altered dramatically.

The Energy East Pipeline will allow all Canadians to benefit from our greatest natural resource. It will provide billions in GDP and government tax revenues, and provide thousands of jobs to our Canadian people. We at the Village of Alliance support the TransCanada Energy East Project for the continued growth of our economy and for the betterment of Canadian living standards.

Respectfully,

A handwritten signature in black ink that reads 'J. Zacharuk'.

Jacqueline Zacharuk, CAO
